Muddy Hair.

From Naps in the Sand.

A lady of the New York smart set had spent the summer at a remote seashore resort where the principal occupation of the select colony was reading or taking naps on the beach between dips in the surf. Her hair, which was originally a beautiful golden brown, came out at the end of the season a handsome mud color, without a particle of brilliancy or life. Then came daily visits to hairdressing palaces to restore the lost color, and incidental experience with lotions, soaps, perfumes, pomades and ointments of different hues and odors, many of them costing several dollars a bottle. But the hair did not improve materially. None of the magic lotions seemed to be doing its intended work. About this time a school friend came from a distant state to pay a brief visit, and learning of her friend's predicament, suggested trying that good old-fashioned remedy known as HAY'S HAIR HEALTH. And one single bottle of this time-tried preparation did more to restore the lost color of her hair than the hundreds of dimes she had spent in hair shops. HAY'S HAIR HEALTH is not a dye. Instead, it is a genuine restorative for the scalp and roots of the hair. Nearly all druggists have it in 50-cent and one dollar bottles, or it can be purchased from the manufacturers, Philo Hay Specialists Company, Newark, N. J., U. S. A.

MORE RESIST TAX

Four Corporations File Petitions for Injunction in Circuit Court.

ONE LOCAL; THREE MOLINE

Hearings of All Cases, by Agreement, Continued to September Term—Petit Jurors Drawn.

Four more applications for injunctions against the county treasurer and the township collectors were filed today in the office of the circuit clerk by corporations which seek to evade the tax which has been levied upon their capital stock. The petitioners are the Lewis Roofing company of this city, represented by McEniry & McEniry, and the Moline Plow company, the H. W. Cooper Saddlery Hardware company, and the Acme Steel company, Moline, represented by G. W. Wood of Moline. The grounds for complaint in each case is that the tax as levied is unfair and unjust.

The four applications filed today and the four which are already on file are to remain in status quo until the next term of court by agreement of the attorneys for both parties. It is understood that a number of additional petitions will be filed shortly and the same course of procedure will probably be taken with all of them. The injunctions all ask that the treasurer and the collectors be prevented from levying upon property in order to enforce payment of the taxes.
